

Teen Numbers: One Ten and Some Ones

Directions

- A full ten-frame holds exactly one ten. The dots outside the frame are the ones.
- Every teen number is one ten and some ones: **teen number** = ten + ones.
- Use the frames on this page to check your thinking. You may draw dots in the empty boxes.

1. The number is 13.

•	•	•	•	•
•	•	•	•	•

--	--	--	--	--

The full frame is one ten. Draw the leftover ones in the empty boxes if you wish.

13 is one ten and _____ ones.

2. The number is 16.

•	•	•	•	•
•	•	•	•	•

--	--	--	--	--

The full frame is one ten. Draw the leftover ones in the empty boxes if you wish.

16 is one ten and _____ ones.

3. Kai built one full ten-frame and put 4 loose counters beside it.

What number did Kai build? _____

4. Mia built one full ten-frame and put 8 loose counters beside it.

What number did Mia build? _____

5. Read the model, then write the number it shows.

The model shows _____.

6. Read the model, then write the number it shows.

The model shows _____.

7. Both 14 and 12 are built with one full ten-frame and some loose counters.

(a) Write $<$, $>$, or $=$ in the blank.

14 12

(b) Explain why the loose counters, and not the frames, decide which number is greater.

8. Nia says: “17 is one ten and seventeen ones.”

(a) Write the correct number of ones. 17 is one ten and _____ ones.

(b) Explain what Nia mixed up.
