

Find the Missing Number

Directions:

- Each problem has a missing number. Write it on the blank.
- The pictures and part-whole boxes are there to help you see the parts.

- 1.** The ten frame shows 8 counters. How many more counters are needed to fill the frame?

•	•	•	•	•
•	•	•		

$8 + \underline{\hspace{2cm}} = 10$

- 2.** Use the part-whole box. One part is missing.

whole: 12	
part: 7	part: ?

$7 + \underline{\hspace{2cm}} = 12$

- 3.** Jo has 9 grapes on her plate. She wants 15 grapes for her snack. How many more grapes does she need?

$9 + \underline{\hspace{2cm}} = 15 \quad \text{grapes}$

4. 6 kids are riding the bus. At the next stop, more kids get on. Now 11 kids are riding. How many kids got on at the stop?

$$6 + \underline{\hspace{2cm}} = 11 \quad \text{kids}$$

5. Use the part-whole box. One part is missing.

whole: 16	
part: 9	part: ?

$$9 + \underline{\hspace{2cm}} = 16$$

6. This time the first part is missing.

$$\underline{\hspace{2cm}} + 8 = 14$$

7. Missing numbers and subtraction are best friends.

(a) Find the missing number: $7 + \underline{\hspace{2cm}} = 13$

(b) Now write the subtraction that checks your answer: $13 - 7 = \underline{\hspace{2cm}}$

8. Lia had some shells in her pail. She found 6 more shells on the beach. Now she has 14 shells. How many shells did she start with?

$$\underline{\hspace{2cm}} + 6 = 14 \quad \text{shells}$$
