

Numbers Three Ways

standard form, word form, and expanded form

Directions:

- A number can be written three ways. Here is 234 written every way:
- **Standard form:** 234 **Expanded form:** $234 = 200 + 30 + 4$ **Word form:** two hundred thirty-four
- Follow the pattern. Each problem asks for one of the three forms.

1. Write **46** in expanded form.

Answer: _____

2. Write the number in standard form: $300 + 20 + 9$

Answer: _____

3. Write **573** in expanded form.

Answer: _____

4. Write **285** in word form.
-

5. Write the number in standard form: **six hundred forty-one**

Answer: _____

6. Write **705** in expanded form. Be careful — one place is empty!

Answer: _____

7. Write **460** in word form.

8. Write the number in standard form: $9 + 800 + 30$

Hint: the parts are not in place-value order.

Answer: _____

9. Write the number in standard form: **nine hundred seven**

Answer: _____

10. Challenge. Fill in the missing part of the expanded form:

$$800 + \underline{\hspace{2cm}} + 2 = 862$$

Then, in your work space, explain how you know which place the missing part comes from.
