

Composite Area and Perimeter Challenges

Rectangle and composite-shape area and perimeter challenges

Directions:

- *Area* covers the inside (square units). *Perimeter* goes around the edge (plain length units).
- For a composite shape, split it into rectangles for area — and walk all the way around, side by side, for perimeter.
- Show your work, and write the unit with every answer.

1. A rectangle is 6 cm long and 4 cm wide. What is its *area*?

Answer: _____ cm^2

2. A rectangular pen is 9 m long and 3 m wide. What is its *perimeter*?

Answer: _____ m

3. Each little square on the grid is one square unit. Find the *area* of the L-shape by counting squares or by splitting it into two rectangles.

Answer: _____ square units

4. Walk all the way around this L-shaped patio. Every side is labeled. What is the *perimeter*?

Answer: _____ cm

5. Find the *area* of this L-shaped playground. Split it into two rectangles first.

Answer: _____ m²

6. An L-shaped hallway rug is made of two rectangle pieces: a long piece 7 m by 2 m, and a top piece 3 m by 2 m. What is the total *area* of the rug?

Answer: _____ m²

7. Find the *area* of this L-shaped sticker. Every side is labeled.

Answer: _____ cm²

8. A photo frame is a rectangle 8 cm long and 6 cm wide. How many centimeters of wooden edge go all the way around the frame?

Answer: _____ cm

9. **Missing sides!** Two side labels of this shape are marked with “?”. .

- (a) Find the two missing side lengths: top side _____ short right side _____
(b) Now find the *perimeter* of the whole shape.

Answer: _____ cm

- 10.** A deck plan joins two rectangles: a main deck 6 m by 3 m and a side deck 4 m by 2 m. What is the total *area* of the deck?

Answer: _____ m²

- 11.** This staircase shape has a 6 m bottom and a 6 m left side, and every short step piece is 2 m long. What is the *perimeter*?

Answer: _____ m

12. Challenge. A school garden has the shape below, with every side labeled.

(a) What is its *area*?

Answer: _____ m²

(b) What is its *perimeter*?

Answer: _____ m

(c) Write $>$, $<$, or $=$ to compare the two numbers you found: area number ____ perimeter number

Answer: _____
