

Adding Story Problems

Directions:

- Read each story. Every story starts with some things, and then more come.
- Show the story with a drawing, counters, or an equation.
- Write your answer on the answer line, with its label.

1. Leo has 3 crayons. Ana gives him 2 more crayons. Draw a circle for each crayon. How many crayons does Leo have now?

Answer: _____ crayons

2. There are 5 frogs on a log. 2 more frogs hop up onto it. Write the story numbers in the equation, then write how many frogs there are in all.

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3. Maya has 6 shells in her pail. She finds 3 more shells on the beach. Count on from 6 to find how many shells she has now.

Answer: _____ shells

4. There are 4 books in the bin. Dad puts in 4 more books. Write the story numbers in the equation, then write how many books are in the bin now.

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

5. The ten-frame shows Pia's 5 buttons. She gets 3 more buttons. Draw the 3 new buttons in the frame. How many buttons does Pia have in all?

•	•	•	•	•

Answer: buttons

6. Nia read 3 pages of her book in the morning and 7 pages at night. Count on from the bigger number to find how many pages she read in all.

Answer: pages

7. Milo sees 8 ants on the sidewalk. 2 more ants join them. Write the story numbers in the equation, then write how many ants there are now.

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

8. Challenge! Tara has 2 stamps. She gets 4 stamps from Gram and 3 stamps from Papa. How many stamps does Tara have now? Tell how you found it.

Answer: _____ stamps
