

Take-Away and Comparing Stories

Directions:

- Some stories **take away**: things pop, fly off, or get eaten.
- Some stories **compare**: who has more, and how many more?
- Draw counters or cross things out any time it helps, and write your answer with its label.

1. Jon has 6 balloons. 2 balloons pop. How many balloons does Jon have left?

Answer: _____ balloons

2. There are 8 cookies on a plate. Max eats 3 cookies. Draw the cookies and cross out the eaten ones if it helps. How many cookies are left?

Answer: _____ cookies

3. 9 kites are flying. 4 kites come down to land. Write the story numbers in the equation, then write how many kites are still flying.

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

4. Lena has 7 stickers. Ben has 5 stickers. How many more stickers does Lena have than Ben?

Answer: _____ stickers

5. Row A shows 6 counters. Row B shows 4 counters. Draw a line from each counter in Row A to a partner in Row B. How many counters in Row A have no partner?

Row A ● ● ● ● ● ●
Row B ○ ○ ○ ○

Answer: _____ counters

6. Zoe has 10 grapes. She eats 4 grapes, and then she eats 2 more. How many grapes does Zoe have left?

Answer: _____ grapes

7. Sam has 9 marbles. Tia has 6 marbles. How many fewer marbles does Tia have than Sam?

Answer: _____ marbles

8. Challenge! Ava picks 10 flowers. She gives 3 flowers to her mom. Kim has 5 flowers.

- How many flowers does Ava have left? _____
- Who has more flowers now? Write her name: _____
- How many more? _____
