

Rounding and Ordering on the Number Line

rounding to the nearest ten, rounding to the nearest hundred, and ordering on a number line

Directions:

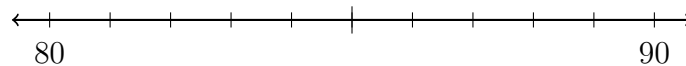

- To round, find your number on the line and ask: which labeled end is it closer to? The taller middle mark shows the halfway point — halfway rounds *up*.
- Some number lines are left blank so you can mark numbers yourself.

1. Round **47** to the nearest ten. Each small mark counts one.

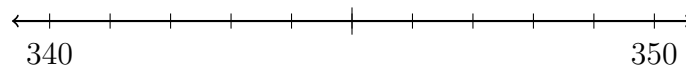

Answer: _____

2. Round **82** to the nearest ten.

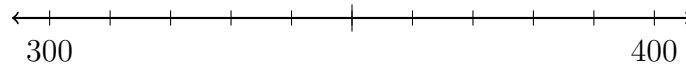

Answer: _____

3. Round **347** to the nearest ten.

Answer: _____

4. Round **362** to the nearest *hundred*. Each small mark counts ten.

Answer: _____

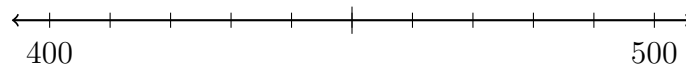

5. Write these numbers in order from *least* to *greatest*. Mark them on the blank line first if it helps.

218 128 281

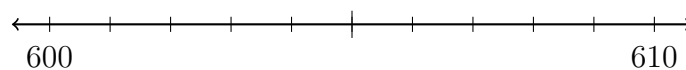

_____, _____, _____

6. Round **455** to the nearest hundred. Think about where it sits on the line!

Answer: _____

7. Round **604** to the nearest ten.

Answer: _____

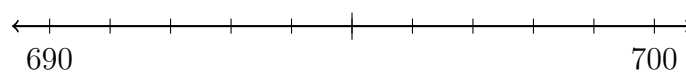

8. Write these numbers in order from *greatest* to *least*. Mark them on the blank line first if it helps.

730 703 733

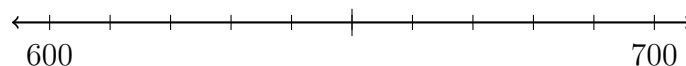

_____ , _____ , _____

9. Round **695** to the nearest ten. Careful — the answer crosses into the next hundred!

Answer: _____

10. Round **649** to the nearest hundred. Which digit decides — the tens or the ones?

Answer: _____

11. Mark **385**, **358**, and **835** on the blank number line, then write them in order from least to greatest.

_____ , _____ , _____

12. Synthesis challenge. I am a mystery number. Rounded to the nearest ten I become **350**. Rounded to the nearest hundred I become **300**. Write one number I could be, and say how you know using the blank line.

Answer: _____
