

Ordering Three Amounts from Least to Greatest

Directions

- First find all three amounts. Count the picture or work out the number, and write each one down in the work space.
- Then write the three numbers in the blanks: the **least** (smallest) amount first, the **greatest** (largest) amount last.

1. Count the apples on each plate.

Plate A	Plate B	Plate C
● ● ● ● ●	● ● ● ● ● ● ● ●	● ● ●

Write the number of apples from least to greatest.

least _____ greatest

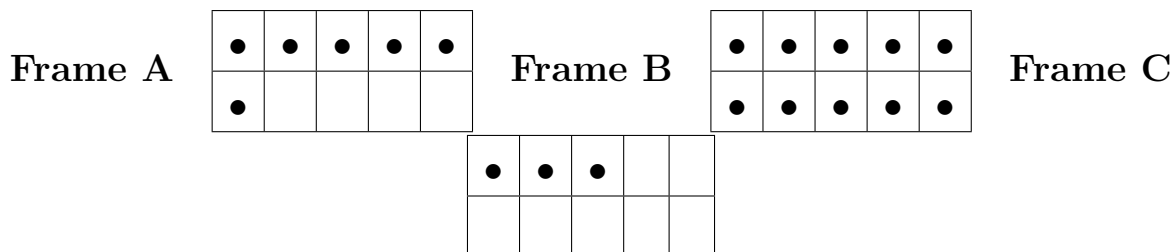

2. Three number cards are on the table. They say seven, four, and nine.

7	4	9
---	---	---

Write the three numbers from least to greatest.

least _____ greatest

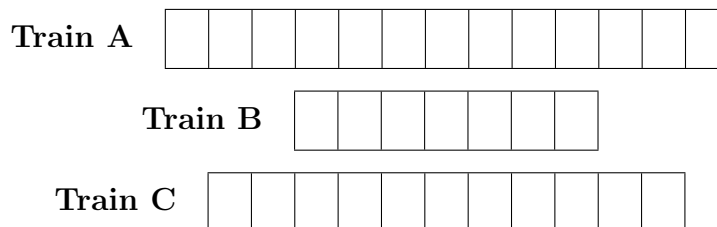

3. Each ten-frame below holds up to ten counters. Count the counters in each frame.

Write the number of counters from least to greatest.

least _____ greatest

4. Three cube trains are built from square cubes. Count the cubes in each train.

Write the number of cubes from least to greatest.

least _____ greatest

5. The class library has three shelves of books. The red shelf holds **20** books. The blue shelf holds **12** books. The green shelf holds **21** books.

Write the numbers of books from least to greatest.

least _____ greatest

6. Three children counted the buttons in their jars. Mia counted **41** buttons. Sam counted **14** buttons. Joy counted **40** buttons.

Read each number carefully. Write the numbers of buttons from least to greatest.

least _____ greatest

7. Ana has **8** stickers. Ben has **3** more stickers than Ana. Cal has **6** stickers.

First work out how many stickers Ben has. Then write the three sticker numbers from least to greatest.

least _____ greatest

8. Three teams counted their points at the end of a game.

- Team Red scored **10** points, then scored **5** more points.
- Team Blue scored **20** points in all.
- Team Gold scored **9** points, then scored **3** more points.

Work out the total points for each team. Then write the three totals from least to greatest.

least _____ greatest
