

Counting On to Compare Two Sets

Counting on to find how many, comparing two sets, and finding how many more

How to count on.

- A full row of a frame is 5. A full frame is 10. You do not have to count a full frame again — start from its number.
- Then touch the extra things one at a time and keep saying the next number. The last number you say tells how many.
- To compare, finish *both* counts first. Then the bigger number wins. $>$ and $<$ always open toward the bigger number.
- “How many more?” means: start at the smaller number and count on until you reach the bigger one. Count how many number words you said.

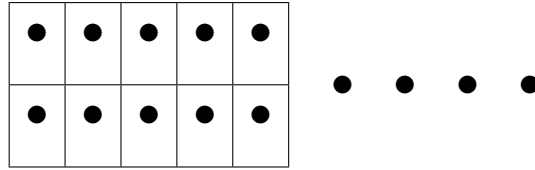

1. Mia has a full five-frame of shells and 3 more beside it. The frame is full, so it holds 5. Start at five and count on.

How many shells does Mia have?

Answer: _____

2. This ten-frame is full, so it holds 10. Count on for the loose buttons.

How many buttons are there in all?

Answer: _____

3. Mia and Ben each show their stickers in two groups. Count on to find each child's total.

Mia: ★ ★ ★ ★ ★ ★ ★ ★

Ben: ★ ★ ★ ★ ★ ★

Write $>$ or $<$ in the blank so the sentence is true.

Mia's stickers _____ Ben's stickers

Answer: _____

4. Sam has 6 blocks. Kip has 9 blocks. Start at six and count on until you reach nine.

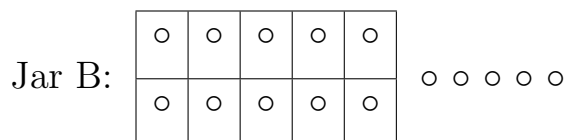

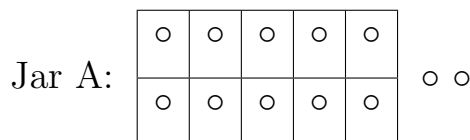

Sam: ■ ■ ■ ■ ■ ■

Kip: ■ ■ ■ ■ ■ ■ ■ ■ ■

How many more blocks does Kip have than Sam?

Answer: _____

5. Both jars were poured onto full ten-frames, so each jar already holds 10 beads. The extra beads are drawn beside each frame.

Write $>$ or $<$: Jar A _____ Jar B

Answer: _____

6. Rosa counted 8 leaves. Theo counted 13 leaves. Start at eight and count on to thirteen. Keep track of how many number words you say.

Rosa: ♣ ♣ ♣ ♣ ♣ ♣ ♣ ♣

Theo: ♣ ♣ ♣ ♣ ♣ ♣ ♣ ♣ ♣ ♣ ♣ ♣ ♣

How many more leaves does Theo have than Rosa?

Answer: _____

7. Look carefully — the longer row is not always the bigger set. Count on to find each total.

Ada: ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥

Leo: ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥

Write $>$ or $<$: Ada's hearts _____ Leo's hearts

Answer: _____

8. These two sets are drawn in different shapes. Count on to find each total before you decide.

Box 1:  

Box 2:  

Write $>$, $<$ or $=$: Box 1 _____ Box 2

Answer: _____

9. Ivy picked 9 apples. Gus picked 15 apples. Count on from nine to fifteen.

Ivy: 

Gus: 

How many more apples does Gus have than Ivy?

Answer: _____

10. Challenge. One tray has a full ten-frame and 3 extra muffins. The other tray has 9 muffins in a row and 5 extra beside it.

Tray A:

○	○	○	○	○
○	○	○	○	○

○ ○ ○

Tray B: o o o o o o o o o o o o o o o

Tray A starts from a full frame, so it looks like the winner. Count on for each tray before you decide, then write $>$ or $<$:

Tray A _____ Tray B

Answer: _____
