

Counting a Set and Telling How Many

Kindergarten–Grade 1 Counting and Cardinality

Counting one object at a time, counting two groups, and telling which set has more

How to count a set.

- Touch one object. Say one number. Touch the next object. Say the next number.
- Touch *every* object, and touch each one *only once*.
- The **last number you say** tells how many are in the whole set.

A five-frame or ten-frame helps: a full row is 5, and a full ten-frame is 10, so you can start from there and count on.

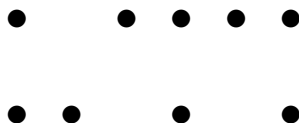

1. Touch each star and count. How many stars are in the set?

★	★	★	★	★
★	★			

Say the last number out loud. That is how many stars there are.

Answer: _____

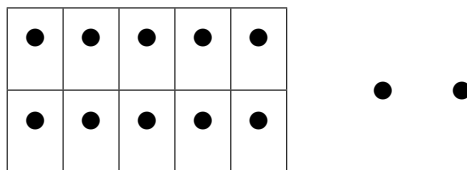

2. These counters are not in a straight line. Touch each one and cross it off as you count, so you do not count any counter twice.

How many counters are in the set?

Answer: _____

3. The ten-frame is completely full, so it shows 10. Start at 10 and count on for the loose dots.

How many dots are there altogether?

Answer: _____

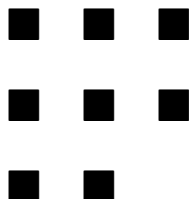

4. Ducks are in two places. Count the ducks in the pond, then keep counting the ducks on the grass.

Pond: ○ ○ ○ ○ Grass: ○ ○ ○ ○ ○

How many ducks are there in all?

Answer: _____

5. The buttons are in rows that are not the same length. Count all of the rows.

How many buttons are in the set?

Answer: _____

6. Rosa and Milo each found some shells.

Rosa: $\diamond$ $\diamond$ $\diamond$ $\diamond$ $\diamond$ $\diamond$ $\diamond$ $\diamond$

Milo: $\diamond$ $\diamond$ $\diamond$ $\diamond$ $\diamond$ $\diamond$

Count Rosa's shells. Count Milo's shells. Then write $>$ or $<$ in the blank so the sentence is true.

Rosa's shells _____ Milo's shells

Answer: _____

7. There are red blocks and blue blocks in the box.

Red: $\blacksquare$ $\blacksquare$ $\blacksquare$ $\blacksquare$ $\blacksquare$ $\blacksquare$ $\blacksquare$

Blue: $\square$ $\square$ $\square$ $\square$ $\square$ $\square$

How many blocks are in the box in all?

Answer: _____

8. Every cup in this muffin tray is full.

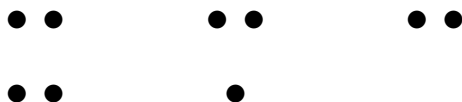

$\circ$	$\circ$	$\circ$	$\circ$	$\circ$	$\circ$	$\circ$	$\circ$
$\circ$	$\circ$	$\circ$	$\circ$	$\circ$	$\circ$	$\circ$	$\circ$

How many muffins are in the tray?

Answer: _____

- 9.** Three baskets hold apples. Count one basket, then keep counting into the next basket, then the next. Do not start over at one.

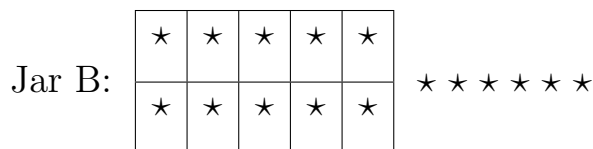

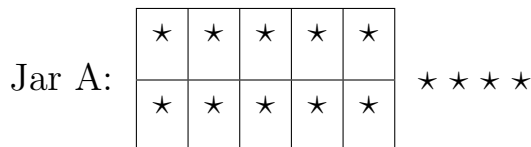

Basket A Basket B Basket C

How many apples are there in all?

Answer: _____

- 10.** Each jar was emptied onto a ten-frame. Both ten-frames are full, so each jar already holds 10 marbles. The extra marbles are drawn beside each ten-frame.

Count how many marbles are in each jar. Then write $>$ or $<$ in the blank so the sentence is true.

Jar A _____ Jar B

Answer: _____
