

Putting Three Amounts in Order

Directions

- *Least* means the smallest amount. *Greatest* means the biggest amount.
- Write the three numbers on the lines, smallest one first.
- Counting up helps: the number you say first is the least.

1. Ana, Ben and Cara counted their stickers.

Child	Stickers
Ana	5
Ben	8
Cara	3

Write the three sticker counts in order from least to greatest.

least _____ _____ _____ greatest

2. Count the dots on each card.

Card A	• • • • • • •
Card B	• • • •
Card C	• • • • • • • • •

Write the three dot counts in order from least to greatest.

least _____ _____ _____ greatest

- 3.** Three jars are filled with water. The red jar holds 6 cups, the blue jar holds 2 cups, and the green jar holds 9 cups.

Write the three amounts, in cups, in order from least to greatest.

least _____ _____ _____ greatest

- 4.** The top shelf holds 7 books. The bottom shelf holds 10 books.

Write $<$, $>$, or $=$ in the blank to compare the two book counts.

7 _____ 10

- 5.** Leo practised the piano for 10 minutes on Monday, 4 minutes on Tuesday, and 7 minutes on Wednesday.

Write the three practice times, in minutes, in order from least to greatest.

least _____ _____ _____ greatest

- 6.** Three ribbons are measured with a centimetre ruler. The gold ribbon is 8 centimetres long, the silver ribbon is 10 centimetres long, and the white ribbon is 6 centimetres long.

Write the three ribbon lengths, in centimetres, in order from least to greatest.

least _____ _____ _____ greatest

7. One basket holds 9 apples, one holds 3 apples, and one holds 6 apples.

(a) Write the three apple counts in order from least to greatest.

least _____ _____ _____ greatest

(b) Explain how you knew which basket held the least.

8. Three boxes of crayons are counted. The first box holds 6 crayons, the second holds 8 crayons, and the third holds 6 crayons.

(a) Write the three crayon counts in order from least to greatest.

least _____ _____ _____ greatest

(b) Two of the counts are the same. Explain what you did with them.
